* The Heritage Centre is located behind the O.F.A.H. Ontario Conservation Centre 4601 Guthrie Drive, Peterborough, Ontario and offers guided tours and fishing rods available for the children to fish in their Shimano ponds.

If interested please sign up for trips in advance to allow us to have an idea of how many kids to expect. Please note that spending money is optional any day. Trips will be postponed if lightning, thunder, or heavy rain threatens the day. If this happens the day camp will resume at the Warsaw Arena. Due to the lack of a lifeguard this year there will be no swimming. However we do have water activities planned when the weather is nice so please bring your bathing suit. We will be able to swim at the ecology park, since there are lifeguards provided. Campers are responsible for bringing their own sunscreen; counsellors will help and remind them to put it on, but will not provide it. Counsellors will not transport children to or from the location of the trip. Parents/guardians are responsible for the drop off and pick up of the campers. Additional costs are highlighted above for the trip days. **Please be on time!!** Any questions please contact Peter at 652-3617 or the township office at 652-8392. Let's have some fun this summer!
